Profile

Digital marketing strategist who builds marketing from the ground up: audience research, brand positioning, content systems and production-ready scripts. I work remotely with tech, healthcare and service brands across the Gulf, turning business goals into weekly content that teams can execute immediately. Certified by Digiwork/GIZ, with a technical background in Mobile Computing and an internationally published author (Daraja Press, 2025).

Experience

Digital Marketing Manager

Current

GDimensions — AI-first software agency, Gulf market (BrightGaza program)

- Built the company's marketing infrastructure from scratch: brand positioning, verbal identity and a three-tone visual system.
- Designed a 60-day content plan across six platforms and a LinkedIn-led B2B strategy targeting founders and CTOs in the Gulf.
- Created a free Digital Transformation Assessment as the primary lead magnet.
- Led UAE TikTok research (six audience segments) and a full account diagnostic that turned into a corrective content plan.
- Wrote weekly short-form video scripts and design briefs for posters, carousels and motion videos.

Content Strategist

Current

Nomo Specialist Rehabilitation Center — pediatric rehabilitation, Najran, KSA

- Developed the content strategy, a 60/30/10 awareness-trust-conversion framework and a fixed weekly publishing schedule.
- Built an Arabic TikTok search (SEO) keyword map; weekly topics are chosen from the most-searched parent questions.
- Produced 30-day calendars, production scripts for designers and a dedicated brief for the X account manager.
- Delivered TikTok and X performance reports and a Saudi National Day seasonal campaign.

Marketing Lead — Pre-Launch

Current

Fixify — home maintenance services platform

- Designed a four-week teaser arc (problem, pain, solution hint, brand reveal) with weekly production scripts.
- Planned event coverage for the startup's graduation from a Dubai business accelerator, built around strict no-face constraints.

Marketing Manager

Current

Smart Spend — fintech MVP for personal and business expense management

- Defined separate value messages for individual users (web + app) and companies (web).
- Set the weekly content rhythm (2 posts, 2 carousels, 2 reels) with detailed production scripts.
